DANIEL B. WEYMOUTH, Treasurer.

I have examined the accounts of Daniel B. Weymouth, Treasurer for the year ending March 1, 1889, and find them correctly cast and properly vouched.

JACOB F. WHITE, Auditor.

Report of School Board.

The treasurer's report shows, in detail, the amount of money received by the school board, and the purposes for which it was expended. Never in recent years have we had so little money for schools. This, as suggested in the report of 1888, was owing to the fact that, under the new apportionment, Andover is, by law, required to raise less money than formerly for the support of schools. There is but one remedy; the district must raise an additional sum, unless we are prepared to allow our schools to be closed two-thirds of the year. We cannot now give the scholars twenty weeks schooling; they should have thirty at least.

The children in Flag Hole attended school at North Road, in Salisbury, during the Spring term, and it was our intention to have brought Tucker Mountain to East Andover, but we were unable to make arrangements for carrying them, except at an expense which would not warrant the undertaking.

During the past year the school houses at Andover Centre and East Andover have been shingled. The one hundred dollars raised for repairs has been expended, and a portion of five per cent of the general school fund. Other repairs are needed, and a new house should be built in Flag Hole if any school is to be kept there.
